**PETITION FOR LEAVE TO AMEND**

Valley Public Television, Inc., by its attorneys, hereby petitions for leave to amend the above-captioned application in accordance with the amendment attached hereto.<sup>1/</sup> In support thereof, the following is stated:

1. Pursuant to Sections 1.65 and 73.3514 of the Commission's Rules, Valley hereby amends its application to correct unintentional errors on page two and three of FCC Form 340 and to ensure the accuracy and completeness of its application by submitting information concerning the proposed transmitter site and reporting amendments to its corporate bylaws.

2. Specifically, Valley notes that it operates as a private nonprofit educational corporation in response to question one of Section II of FCC Form 340. In preparing its application, Valley inadvertently answered that question by

---

<sup>1/</sup> This amendment is filed in accordance with Rule 73.3522(a)(2).

marking (b), indicating that Valley was a educational institution, instead of "(c) other", on Form 340. A recent review of the application by Valley's counsel turned up this unintentional and inadvertent error. That same review also revealed the application did not include the name of one of Valley's directors of its governing board in its answer to question 8 of Section II.

3. Also, Valley amended its bylaws to remove any confusion as to its authority to add directors from the Bakersfield community. In its application, Valley stated it "plans to establish at least two positions on its Board of Directors to be filled by Bakersfield/Kern County residents".

4. Finally, Valley submits the Radiofrequency Radiation Statement of KERO-TV, McGraw-Hill Broadcasting Co., Inc., filed with the Commission on August 1, 1988, showing the results of field measurements performed at the transmitter site for KERO-TV, which is also the site specified for Valley's transmitter in its pending application. That statement supplements Valley's answer to Question 20 of Section V-C on Form 340 by showing the results of actual tests for radiofrequency radiation at the proposed site, and by demonstrating Valley's intent to protect the public and maintenance workers from exposure to harmful radiofrequency radiation. These submissions are for the purpose of ensuring the completeness and accuracy of Valley's application. Therefore, Valley requests that the amendment be accepted pursuant to Sections 1.65 and 73.3514 of the rules.

5. In addition to providing a complete and accurate record for Commission consideration, the acceptance of this amendment will not disrupt or prolong the processing of the application. Although the application is mutually exclusive, the designation order has not yet been issued. Additionally, the amendment does not change the substantive position of Valley or the merits of Valley's application. The public interest would be furthered by immediate acceptance of the instant amendment. See Azalea Corp., 31 F.C.C. 2d 561, 563 (1971); Anax Broadcasting, 87 F.C.C. 2d 483, 488 (1981). The amendment merely provides required information necessary to ensure the accuracy of the application.

WHEREFORE, Valley respectfully requests that this petition be granted and the tendered amendment accepted.

Respectfully submitted,  
VALLEY PUBLIC TELEVISION, INC.

## Section II - LEGAL QUALIFICATIONS

Name of Applicant

Valley Public Television, Inc.

1. Applicant is: (Check one box below)

- ☐ (a) governmental or public educational agency, board or institution
- ☐ (b) private nonprofit educational institution
- ☒ (c) Other (specify) Applicant is a not-for-profit, non-stockholder corporation.  
All board members have one vote.

2. For applicants 1(c) only, describe in an Exhibit the nature and educational purposes of the applicant.

Exhibit No.  
A

3. For applicants 1(c) applying for a new noncommercial educational television station only, describe in an Exhibit how the applicant's officers, directors and members of its governing board are broadly representative of the educational, cultural and civic segments of the principal community to be served.

Exhibit No.  
B

4. Describe in an Exhibit how the proposed station will be used, in accordance with 47 C.F.R. Section 73.503 or Section 73.621, for the advancement of an educational program.

Exhibit No.  
1

5. Is there any provision contained in any by-laws, articles of incorporation, partnership agreement, charter, statute or other document which would restrict the applicant in advancing an educational program or complying with any Commission rule, policy or provision of the Communications Act of 1934, as amended?

☐ Yes ☒ No

If Yes, provide particulars in an Exhibit.

Exhibit No.

### CITIZENSHIP AND OTHER STATUTORY REQUIREMENTS

6. (a) Is the applicant in violation of the provisions of Section 310 of the Communications Act of 1934, as amended, relating to interests of aliens and foreign governments? (See Instruction B to Section II.)

☐ Yes ☒ No

(b) Will any funds, credits or other financial assistance for the construction, purchase or operation of the station(s) be provided by aliens, foreign entities, domestic entities controlled by aliens, or their agents?

☐ Yes ☒ No

If the answer to (b) above is Yes, attach an Exhibit giving full disclosure concerning this assistance.

Exhibit No.

7. (a) Has an adverse finding been made or an adverse final action taken by any court or administrative body as to the applicant or any party to this application in a civil or criminal proceeding brought under the provisions of any law related to the following:

Any felony; broadcast related antitrust or unfair competition; criminal fraud or fraud before another governmental unit; or discrimination?

☐ Yes ☒ No

(b) Is there now pending in any court or administrative body any proceeding involving any of the matters referred to in (a) above?

☐ Yes ☒ No

If the answer to (a) and/or (b) above is Yes, attach an Exhibit giving full disclosure concerning persons and matters involved, including an identification of the court or administrative body and the proceeding (by dates and file numbers), a statement of the facts upon which the proceeding is or was based or the nature of the offense alleged or committed, and a description of the current status or disposition of the matter.

Exhibit No.

Valley Public Television, Inc.  
File No. BPET-900904KF  
Response Required by  
FCC Form 340  
Part II, Question 2

**EXHIBIT A**

Valley Public Television, Inc. ("Valley") is a California non-profit, public benefit corporation that is organized for the purpose of establishing and operating noncommercial educational television broadcast services in the San Joaquin Valley in Central California.

Valley's specific chartered purpose is to "develop, finance and operate non-commercial educational broadcast facilities in the San Joaquin Valley, including, without limitation, the cities of Fresno and Bakersfield, California, for the benefit of an area including, but not limited to, Kings, Madera, Tulare, Kern and Fresno Counties: the coordination of educational cultural, governmental, and other interests to service such facilities; and to do all things reasonable, necessary, suitable, proper, convenient, or incidental to the aforesaid purposes, including the broadcasting of an I.T.V. signal while school is in session...."

Valley is the licensee of KVPT-TV, Channel 18, in Fresno, California. Valley (formerly KMTF, Channel 18, Inc.) has been the licensee of KVPT-TV (formerly KMTF(TV)) since 1987 when the Commission granted the assignment of license from the Fresno

County Board of Education to KMTF, Channel 18, Inc. As shown by documents on file with the Commission in that assignment proceeding, Valley was assigned the license to relieve a financial drain on the Fresno county schools, and yet allow the continuance of the station's school instructional programs. See Exhibits A and 1 of BALET-870701KE as originally filed, which documentation is incorporated herein by reference.

As noted in Exhibit 1 to the present application, Valley is an affiliate of the Public Broadcasting Service and carries all of its educational programs. Additionally, Valley collaborates with central California schools to produce educational programs. Valley's educational purpose has not changed. The Legislature of the State of California declared "[t]eachers in Fresno public schools have consistently utilized the programming of Channel 18, to enhance their respective school instructional programs, and to provide home and classroom assignments, and continuance of Channel 18 will confer a substantial benefit upon the Fresno public schools." See Exhibit A of BALET-870701KE.

Valley's purpose and objective in seeking a television station at Bakersfield is to offer specialized and local educational television to the presently under-served area of Kern County in Central California.

Operating a satellite/semi-satellite of KVPT-TV, Valley will

be able to offer the educational programming currently delivered over that station to the Bakersfield area, in furtherance of its purpose to bring noncommercial educational television to the San Joaquin Valley. The operation of the station at Bakersfield will be integrated into the overall educational objectives of Valley. As stated in Exhibit 3 of its application, Valley will establish at least two additional positions on its Board of Directors and will also establish a Bakersfield area KVPT Advisory Board to advise the Valley Board of Directors of the educational needs of the Bakersfield community.

Valley Public Television, Inc.  
File No. BPET-900904KF  
Response Required by  
FCC Form 340  
Part II, Question 2

**EXHIBIT B**

Valley Public Television, Inc. ("Valley") is a California non-profit, public benefit corporation governed by a nine member Board of Directors. Additionally, in the event a license is issued to Valley to operate a station on Channel \*39 in Bakersfield, Valley's bylaws provide that an additional two Directors will be elected from Kern County to serve such terms as the Board may determine at the time of election. Valley has previously stated in its application that those two Directors will be elected from the Bakersfield community. Valley will select members for those two positions who are broadly representative of Bakersfield's educational, cultural and civic segments and will notify the Commission when any new member is elected.

Valley became the licensee of KVPT-TV in 1987, and since that time the current Board members have been continuously involved in providing educational programming over the station. Valley's proposed city grade contour wholly encompasses Bakersfield, and Valley is currently serving the northern portion of Kern County, meeting the needs and interests of people in that area for years. Additionally, as pointed out in Valley's application, there are substantial cultural, economic and social links between Kern,

Tulare, Fresno and Kings Counties which make it a distinct geographical area which is represented by all members of Valley's Board.

As shown by the attached biographical resumes, members of the current Board of Directors show substantial and varied professions and activities evidencing broad representation of the educational, cultural and civic segments of the area known as the San Joaquin Valley.

These Board members also have affiliations in the Bakersfield area which affords a broad representation of the interests of that community. For example, Lewis S. Eaton, Director of Valley, is also a Director of P.G. & E., serving an area which includes Bakersfield, and a board member of Grundfos Pump, also in Bakersfield. Additionally, Mr. Eaton currently serves as Director Emeritus of Glenfed Federal Bank, located in Bakersfield. William Lyles, apart from his role as Director of Valley, owns the Kaweah Construction Company and the W. M. Lyles Co., both located in Bakersfield. Mr. Lyles also serves as a Board Member for the Community First Bank in Bakersfield. Ernie Poore's background includes a career in education. He previously held the post of Chairman of the State of California County Schools Superintendents for the area including all of Kern County. Mary Louise Vivier has taught at California State University, Bakersfield, and currently serves as District Chair for the American Association of

University Women for the Fresno/Bakersfield area. Other members hold property in Bakersfield, own businesses that serve Bakersfield residents, and belong to civic and cultural associations and groups which operate within Valley's proposed service area. The breadth and variety of experience and activities of each of the current Board members, enhanced by the inclusion of two more members who will be residents of Bakersfield, ensures that the Bakersfield educational, cultural and civic segments will be broadly represented by Valley's Board.

City of Fresno Little Hoover Commission

It has been determined by field measurement that the KERO-TV transmitter site is in compliance with Section 1.1305 of the Commission's rules.

The field measurements were made on July 19, 1988, by KERO-TV personnel using a narda/Microline Electromagnetic Radiation Monitor, Model 8315A, S/N 05051 and a narda Isotropic Probe Model 8323, S/N 06008.

Measurements were made around all operating equipment, in all rooms of the transmitter building, over the entire exterior grounds inside and outside of the perimeter fence, on all short towers, the building roof and the main KERO-TV antenna tower to the fifty foot level.

The field measurements show that no members of the public, station personnel or on-site workers will be subject to exposure to radiation in excess of the applicable safety standards in those areas.

The station will take such steps as are necessary, including reduction in power or cessation of operation, to prevent exposure to unsafe levels of radiation on the part of maintenance personnel who are required to work in the ~~vicinity of the KERO-TV transmission tower~~

UNANIMOUS WRITTEN CONSENT OF BOARD OF DIRECTORS OF  
VALLEY PUBLIC TELEVISION, INC.

---

We, the undersigned, constituting the entire Board of Directors of VALLEY PUBLIC TELEVISION, INC., a California corporation, unanimously adopt, approve, and consent to the following Resolutions:

RESOLVED, that the following amendment to the Articles of Incorporation of this Corporation is adopted and approved:

ARTICLE II of the Articles of Incorporation is amended to read in its entirety as follows:

II

PURPOSES

This corporation is a non-profit, public benefit corporation and is not organized for the private gain of any person. It is organized under the Non-profit, Public Benefit Corporation Law for public purposes. The public purposes of this corporation are to develop, finance and operate non-commercial education broadcast facilities in California including but not limited to Fresno, California and Bakersfield, California, for the benefit of an area, including, but not limited to, Kings, Madera, Tulare, Kern, and Fresno Counties, the
